

Proposed Idaho Medicaid Health Home Provider and Clinic Requirements

A per-member-per-month (PMPM) payment of \$15.50 will be paid to participating practices provided that the practice continues to meet the Medicaid requirements below.

Healthy Connection Requirement

Medicaid Health Home providers must be Healthy Connections providers, as the Health Homes Program is an enhancement of the Healthy Connections Primary Care Case Management system.

Accessibility Requirement

Forty six hours access prior to enrollment as a Health Home provider: the clinic must have 46 hours of clinic access per week to provide patient care. The objective is to provide access so patients can get care during challenging times of the day (e.g., evenings, lunch hours, and Saturdays).
